ALTERNATIVE NAMES FOR SCHOOL DISTRICTS

Wisconsin's 432 school districts are listed in the various sections of this publication in alphabetical order by a shortened form of the legal district name. However, because many school districts are also known by other, less formal names, you may not be able to locate the district in the place where you are looking for it. This cross-reference list should help.

SECTION A - STATEWIDE STATISTICAL SUMMARY TABLES

Statewide Summary Tables in Section A are compiled from detail information reported by local school districts and private schools each year. Statewide averages and summaries provide local school districts and other states a base for comparison purposes. Definition of terms are provided in Section H (Glossary of Terms and Definitions).

If you have questions about the statewide summary tables in Section A, please contact Don Russell (608) 266-1746 regarding non-fiscal data or Roger Sunby (608) 266-2840 regarding fiscal data.

SECTION C - COMPLETE ANNUAL SCHOOL COST PER MEMBER

Information on "complete annual school cost per member" is retrieved from actual financial data on Annual Reports filed by school districts for the school years 1983-84, 1984-85, and 1985-86.

These figures are intended for inter-district cost comparisons, but cannot indicate the extent or quality of the educational program from one district to another. In general, it is expected that higher per-pupil costs can be at least partially attributed to increased educational offerings. The DPI encourages people who want to compare costs to research the reasons for the cost differential and include this information in their publications.

The per-member figures are based on "complete annual school costs" and "general aid membership" (see definitions below and in the Glossary of Terms and Definitions, Section F). The transportation cost per member is computed by dividing the gross cost of transportation by the membership (not by the number of pupils transported).

Complete Annual School Cost (CASC) is defined as the gross cost of the general, special project, debt service and food service funds, plus the net cost of the building fund. The CASC also reflects the subtraction of costs paid for by incoming transfers from other school districts.

General Aid Membership is the average of the prior year memberships on the third Friday in September and the second Friday in January, plus the prior year summer ADM equivalent.

If you have questions about Section C or need additional information or clarification, please contact Roger Sunby, Bureau for State School Aids Administration and Consultation, (608) 266-2840.

SECTION D – DISTRIBUTION OF STATE-AID DOLLARS, 1985-86

Information on state aid paid during the 1985-86 school year is retrieved from records of payments made by the Department of Public Instruction. Each of the aid programs is briefly described on the next few pages. Definitions of terms are provided in Section H (Glossary of Terms and Definitions).

State aids are computed on prior year net costs and membership. Therefore, the aids paid in 1985-86 are based on net costs and membership from the 1984-85 school year.

If you have questions about Section D or need additional information or clarification, please contact Roger Sunby, Bureau for State School Aids Administration and Consultation, (608) 266-2840.

SECTION D – DISTRIBUTION OF STATE-AID DOLLARS, 1985-86

EQUALIZATION AID FOR 1985-86

Requirements

General aid for public elementary and secondary schools is determined under the provisions set forth in the following statutes:

121.004	Definitions
121.07	General provisions; state aid computation
121.08	Payment of state aids; reductions
121.14	State aid for summer classes

The appropriation for the payment of such funds is found in Statute 20.255(2)(ac).

Membership

Statute 121.004(5) and 121.05(a) defined "membership" as the average of the number of pupils enrolled on the 3rd Friday of September and the second Friday of January, plus the summer school average daily membership equivalent as reported on the Budget Report of the school district. Membership from the Budget Report and the January membership reports for fiscal year 1984-85 was used in the general aid computation for 1985-86.

Equalization

Under the provisions of Statute 121.06, the Department of Revenue annually determines, on a uniform basis, the property value (called "equalized valuation") of each school district in Wisconsin. The equalized valuations for 1985 were used in computing general aid for the 1985-86 school year.

The local tax base available for the education of each child may be determined by dividing the district's equalized valuation by its membership. The resulting equalized valuation per member varies widely, from a low of 77,927 to a high of 988,561 for districts offering grades kindergarten through 12 in 1985-86. Obviously, if the local tax base provided the only source of revenue available to the local school district, the quality of education would likely vary widely among schools, depending on the ability of each district to raise sufficient property tax for operation of the schools.

The state general aid formula provides for equalization of the property tax base. A tax base of $270,100 is guaranteed to support education costs for each pupil in K-12 districts. If the district tax base falls below that amount, the state general aid formula supplements the local tax base up to the guaranteed tax base level.

Cost-Sharing

Statute 121.07(6) defined "shared cost" as:

> ...the sum of the net cost of the general fund and the net cost of the debt service fund. The net cost of the debt service fund included in the shared cost may not exceed an amount equal to $90 multiplied by the membership.

School districts establish their own educational programs in response to local needs and desires. Thus, the level of the educational programs may vary among districts along with the amount of funding needed to support the programs. Shared costs, as defined above, are paid by local taxes and state general aid on an equalization basis.

Suppose, for example, that a district has a shared cost of $3,298 per pupil and an equalized valuation of $140,452 per pupil. The equalized valuation is 52% of the state-guaranteed valuation per pupil, so the district will pay 52% of its shared cost ($1,715). The remaining 48% ($1,583) is paid by the state in the form of general aid.

The following diagram illustrates how the state and the local district each contribute a portion of the guaranteed valuation per pupil (the state's portion is called the "net guaranteed valuation"), and how each contributes a corresponding amount of the shared cost.

GUARANTEED VALUATION ($270,100/member)		SHARED COST ($3,298/member)
Net Guaranteed Valuation ($129,650/member)	State Share (48%)	General State Aid ($1,583/member)
Equalized Valuation ($140,450/member)	Local Share (52%)	Property Tax ($1,715/member)

General Aid Formula

The formula for general state aid is as follows:

$$\text{General State Aid} = \text{Shared Cost} \times \frac{\text{Net Guaranteed Valuation}}{\text{Guaranteed Valuation}}$$

For the example above, this would work as follows:

$$\text{General State Aid} = \$3{,}298/\text{member} \times \frac{\$129{,}650}{\$270{,}100}$$

$$= \$3{,}298/\text{member} \times 48\% = \$1{,}583/\text{member}$$

Because the ratio of the net guaranteed valuation to the guaranteed valuation can be expressed as a percent, the above formula is often called the "percentage method" of computing aid.

The same computation can be performed in a slightly different fashion *(because of "rounding off" of individual figures, the results may not equal exactly, but for purposes of this example, it will be assumed that they do agree):*

$$\text{General State Aid} = \frac{\text{Shared Cost}}{\text{Guaranteed Valuation}} \times \text{Net Guaranteed Valuation}$$

$$= \frac{\$\ 3{,}298/\text{member}}{\$270{,}100/\text{member}} \times \$129{,}650/\text{member}$$

$$= .0122103 \times \$129{,}650/\text{member} = \$1{,}583/\text{member}$$

The number .0122103 in the above computation is called a "levy rate." In this case it represents a tax of .01221, or 12.21 mills per dollar of equalized valuation. (A mill is 1/1000 of a dollar or 1/10 of a cent.) For this reason, the levy rate is sometimes called the "mill rate." While either the percentage method or the levy rate method of computing state aid will produce the same results, the levy-rate method is the one specified by law.

It is interesting to note that the levy rate is based solely on the district's spending level (the shared cost per member) and the guaranteed valuation. Since the guarantee is the same for all districts, the only factor in the formula which changes from one district to another is the cost. This produces a general rule that districts which spend at the same level per member will tax at the same rate.

It is also interesting to note that the same levy rate may be applied to the valuations discussed above to produce the corresponding amounts of shared costs:

Guaranteed Valuation	x	Levy Rate	=	Shared Cost
$270,100/member	x	0.01221	=	$3,298/member
Equalized Valuation	x	Levy Rate	=	Property Tax
$140,450/member	x	0.01221	=	$1,715/member
Net Guaranteed Val.	x	Levy Rate	=	General State Aid
$129,650/member	x	0.01221	=	$1,583/member

The state applies the same levy rate to its share of the guaranteed valuation as the district applies to its own equalized valuation. Together the state and the districts form a partnership to support the education of public elementary and secondary pupils in Wisconsin.

Two Levels of Sharing

Up to this point, only one guaranteed valuation has been discussed. However, the law provides for two levels of state support and, therefore, two guaranteed valuations - one for "low" costs and one for "high" costs. The $270,100 per pupil mentioned above is the guaranteed valuation for "low" or primary costs, i.e., that part of the shared cost which falls below a ceiling equal to 110% of the previous year's state average shared cost per pupil. In 1985-86 the primary cost ceiling was $3,298. The examples used previously involve a shared cost of $3,298 per member, which is at the primary cost ceiling. In such a case, the district had only primary costs.

"Secondary" costs consist of the shared cost above the primary cost ceiling. Thus, a district which had a shared cost of $3,703 per member would have a primary cost of $3,298 and a secondary cost of $405.

Just as the guaranteed valuation of 270,100 per member applies to the primary cost, so there is a secondary guaranteed valuation per member which is applied to the secondary cost. According to Statute 121.07(7), the secondary guarantee is equal to 106% of the state-average equalized valuation per pupil rounded to the nearest hundred dollars. During 1985-86, the secondary guaranteed valuation per member was $176,600.

The secondary guarantee is applied in the same way as the primary guarantee; the secondary shared cost, divided by the secondary guarantee, produces the secondary levy rate. When the secondary levy rate is applied to the district's equalized valuation, it produces a property tax to help offset the secondary cost. For example, if a district had an equalized valuation of $140,450 per member, as in the previous examples, but had a shared cost of $3,703 per member, it would have a secondary cost of $405 per member. Its secondary state aid would then work out as follows:

$$\text{Secondary Aid} = \frac{\text{Secondary Cost}}{\text{Secondary Guarantee}} \times \text{Secondary Net Guaranteed Valuation}$$

$$= \frac{\$\ \ \ 405/\text{member}}{\$176{,}600/\text{member}} \times \$36{,}150$$

$$= 0.0022933 \times \$36{,}150 = \$83/\text{member}$$

This amount would be in addition to $1,583 per member in primary aid (on the primary cost of $3,298), worked out as described earlier. Thus, the district would receive a total of $1,666 per member in state aid and would have to raise the remaining $2,037 per member from its own tax base. To do so would result in a levy rate of 14.5 mills.

$$\text{Levy}\ \text{[illegible]}\ \frac{\text{Property Tax}}{\text{Equalized Val.}} = \frac{\$\ \ 2{,}037/\text{member}}{\$140{,}450/\text{member}} = .0145$$

Not surprisingly, this is the same value produced by adding together the primary and secondary levy rates of 0.01221 and 0.00229 respectively. Therefore, the general rule continues to hold true: districts which spend at the same level per pupil will tax at the same rate.

There is an aspect of secondary aid, however, which under certain conditions may offset some earned primary aid. For example, a district with an equalized valuation of $181,500 per member ($4,900 more than the secondary guarantee) and a shared cost of $3,703 per member would have a primary aid of $1,081 per member partially offset by a negative secondary aid of $11 per member, for a total aid of $1,070 per member. Note, though, that its tax rate will continue to be the same as all the other districts which are also spending $3,703 per member.

UHS AND ELEMENTARY DISTRICTS

There were 432 school districts in Wisconsin in 1985-86. Of that number, 373 operated kindergarten through Grade 12. Another 10, called union high school (UHS) districts, operated only Grades 9 through 12. The remaining 49 districts are called elementary districts. They operated kindergarten through Grade 8 and fell within the same geographic area served by the UHS districts.

Each type of district has its own guarantee, as indicated in the table below:

TYPE OF DISTRICT	PRIMARY GUARANTEE	SECONDARY GUARANTEE	PRIMARY CEILING
K-12	$270,100	$176,600	$3,298.53
UHS	$810,300	$529,800	$3,298.53
K-8	$405,200	$264,900	$3,298.53

MINIMUM STATE AIDS

A school district qualifies for minimum aid if the "state aids" (the sum of equalization aid, supplemental aid and school aid credit) are below per-pupil minimum amounts and certain criteria are met. These per-pupil minimums and criteria are as follows:

a. $250/Member for school districts having a median household income of less than $15,000 (according to the last federal census).

b. $150/Member for school districts having a median household income of at least $15,000 but less than $20,000 and their school property tax levy rate for the previous year was below the state average.

c. $250/Member for school districts having a median household income of at least $15,000 but not more than $25,000 and their prop[illegible] tax levy rate for the previous year was above the state average.

The amount of minimum aid paid to a district is the difference between the "state aids" (1st paragraph) already paid and the amount determined under a, b, or c.

SPECIAL ADJUSTMENT AIDS

Statute 121.105 provided that a school district that would receive less than 90% of the state aid for the current year than it received in the previous year would have its state aid increased to an amount equal to 90% of the previous year's aid. State aid in this statute means the sum of payments to a school district under ss. 20.255(2)(ac) and (an) and 20.835(3)(c).

INTEGRATION AID

The authorization for state aids to districts for pupil transfers resulting from a plan to reduce racial imbalance (inter- or intra- district) is found in Subchapter 6 of Chapter 121 of the statutes. The appropriation is listed under Statute 20.255(2)(ac). The integration plan outlined in Subchapter 6 involves transfers of minority (or nonminority) students from a school where at least 30% of pupils enrolled are minority (or nonminority) to a school where less than 30% of pupils enrolled are minority (nonminority). In the case of intra-district integration transfers, each transferred pupil is weighted at 1.325 in the equalization-aid formula, and the additional aid generated is integration aid. In the case of inter-district transfers, the district of residence continues to count the pupil as 1.0 for equalization-aid purposes (which is not integration aid), and the district of attendance is paid state aid amounting to approximately the cost of educating each transferred pupil. As an incentive to participate fully in the program, inter-district aid is increased by 20% if incoming transfer pupils exceed 5% of the district's enrollment.

SUPPLEMENTAL AID

This type of aid is available to school districts which contain a tax-incremental area, as defined in Statute 66.46. The amount of this aid, as established under Statute 121.085, using the equalization aid plus credit, is the difference between the amount of aid generated using the full value of all taxable property and the amount generated if the equalized valuation of the tax incremental area were not allowed to exceed the value it had when it was created. For any Tax Incremental Districts created after January 1, 1983, the school district will not be eligible for the supplemental aid. The appropriation is found under Statute 20.255(2)(an).

PUPIL-TRANSPORTATION AID

State transportation aids are determined under the provisions of Statute 121.58. The appropriations for transporting public school pupils are found in Statute 20.255(2)(cr) and 20.255(2)(q). Aids paid to public school districts for transporting pupils to non-public schools are also included in these appropriations.

School districts which furnish transportation to and from public and private schools are entitled to receive state aid at the following rates:

Distance Transported	Regular Year	Summer School
0-2 miles (hazardous area)	$12/pupil	———
2-5 miles	$30/pupil	$4/pupil
5-8 miles	$45/pupil	$6/pupil
8-12 miles	$60/pupil	$6/pupil
12-15 miles	$68/pupil	$6/pupil
15-18 miles	$75/pupil	$6/pupil
over 18 miles	$85/pupil	$6/pupil

Distances are measured from the pupil's residence to the school attended, following the shortest commonly traveled route. Half payment is made for pupils transported less than 91 days (regular year) or 16 days (summer school).

In the 1985-86 school year, state aid was paid for 476,031 children (419,129 public and 56,902 private). However, school districts also transported without benefit of transportation aid about 29,820 (26,845 public and 2,975 private) who lived less than 2 miles from school. School districts are reimbursed on the number of children transported during the prior year. The 1985-86 transportation aid is based on the number of children transported in the 1984-85 school year.

STATE TUITION PAYMENTS

State payment of tuition for pupils is authorized under Statute 121.79:

> 121.79 Tuition payments by state. (1) The state shall pay tuition from the appropriation under s. 20.255(2)(cg) for children attending public schools in the following cases.
>
> (a) For children in children's homes.
>
> (b) For children of parents employed at and residing on the grounds of a state or federal military camp, federal veteran hospital or state charitable or penal institution.
>
> (c) For children in foster homes and for children in group homes if:
>
> 1. The foster or group home is located outside the school district in which the child's parent or guardian resides; and
>
> 2. The foster or group home is exempted (from property taxation) under s.70.11.

SCHOOL-LIBRARY AID

(From The Common School Fund)

The source of authority for the Common School Fund is Article 10 Sections 4 and 5, Wisconsin State Constitution, and Statute 43.70; the appropriation is found under Statute 20.255(2)(s). The income from the Common School Fund is distributed on the basis of the total number of children between the ages of 4 and 20 residing in the school district as of June 30 of the year before payments are made. The total number of children so reported in 1985 was 1,120,625. This number was divided into the Common School Fund balance of December 1, 1985 ($9,760,000) to produce a per-capita payment of $8.70 rounded downward to the nearest penny. When distributed at this rate, the school-library aid amounted to a total of $9,749,465.

DRIVER-EDUCATION AID

(From The Highway Fund)

The authorization for driver-education aid is found in Subchapter 3 of Chapter 121 of Wisconsin Statutes; the appropriation is listed in Statute 20.255(2)(r), in which funds are transferred from the Highway Fund (chauffeur's license fees) to the Department of Public Instruction. The funds are used to encourage school districts to promote effective driver training programs. In 1985-86 school districts received $40 for each pupil who successfully completed the classroom and behind-the-wheel phases of the driver-education program.

HANDICAPPED CHILDREN EDUCATION AID

There are 11 major areas of state aid for school districts, CHCEBs and CESAs providing special programs for children with exceptional educational needs (EEN):

(1) early childhood
(2) physical or orthopedic disability,
(3) mental retardation or other developmental disability,
(4) hearing impairment,
(5) visual disability,
(6) speech and language disability,
(7) emotional disturbance,
(8) learning disability,
(9) pregnancy (including up to 4 months after termination of the pregnancy and including summer vacation),
(10) special-education coordinators, and
(11) homebound instruction.

In addition, the state reimburses special transportation costs and school psychologist and social-worker costs. The authorization for handicapped aid is found in Statute 115.88, and the appropriation is listed under Statute 20.255(2)(b).

The plan of services for each special-education class must be approved by the DPI. Classes for the physically handicapped include treatment and therapy as well as academic curriculum.

The 1985-86 aid reimbursement by the state was based on the prior year's cost of EEN programs provided by the districts, CHCEBs, and CESAs.

The cost on which aid was paid included the salaries and fringe benefits for certified coordinators, EEN teachers and aides, occupational and physical therapists, psychologists, social workers, and substitutes. The state aid for psychologists and social workers was computed at 51% and the other staff at 63%.

Aid at 63% was also paid on the special transportation cost and special approved equipment costs.

The boarding home cost for non-resident EEN children and the cost of transportation from the boarding home to the classroom was paid at 100% to the service provider.

BILINGUAL/BICULTURAL AID

A bilingual/bicultural-education program is designed to improve the comprehension, speaking, reading, and writing ability of a limited-English-speaking pupil in the English language, so that the pupil will be able to perform ordinary classwork in English. Any school district operating such a program is eligible to receive state aid equal to 70% of the approved expenditures attributable to the program. The authorization for the program and aid is established in Subchapter 6 of Chapter 115 of the statutes, and the appropriation is listed under Statute 20.255(2)(cc).

ALCOHOL AND OTHER DRUG ABUSE GRANTS

Statute 115.36(3) authorizes the DPI to award grants to public school districts for demonstration projects designed to assist minors to avoid or overcome problems resulting from the abuse of alcohol and other drugs. Local districts must match 20% of the DPI grant from local sources. The appropriation is listed under Statute 20.255(2)(g).

MATCHING SCHOOL-LUNCH AID

Statute 115.34 authorizes the state to make payments to school districts for school lunches provided to children in the prior year. The payments equal the state's obligation to match federal aid under 42 USC 1751 et seq. The appropriation is found under Statute 20.255(2)(cn). Amounts paid to non-public agencies are not shown.

ELDERLY FOOD-SERVICE AID

Statute 115.345 authorizes aid payments for elderly food service. School districts operating an approved food-service program for the elderly may be reimbursed at the rate of $0.20 per meal for reasonable costs incurred excluding capital-equipment costs. The appropriation is listed under Statute 20.255(2)(cn).

SECTION E – ESTIMATED GENERAL-SCHOOL-AID ELIGIBILITY FOR 1986-87
(as of 4/10/87 - final eligibilities computed 6/87)

Information on general-school-aid eligibility for 1986-87 is retrieved from financial data in the 1985-86 Annual Reports, from membership data in 1985-86 Budget Reports and January Membership Reports, and from equalized property valuations certified by the Wisconsin Department of Revenue for calendar year 1986. General school aid is computed through a fairly complicated process which is briefly explained on the next few pages.

If you have questions about Section E or need additional information or clarification, please contact Roger Sunby, Bureau for State School Aids Administration and Consultation, (608) 266-2840.

INTRODUCTORY COMMENTS

General aid is financial assistance to a school district which may be used to help fund a broad range of educational purposes by the district, as opposed to categorical aid, which must be used for a specific purpose or category of program. Categorical aids are paid on a reimbursement basis in the school year following the year in which the services were provided. General aid is based on prior-year membership data, prior year costs and current year equalized values.

State aid will cover approximately 45.6% of comprehensive annual school costs in 1986-87.

SOURCES OF DATA

Figures for school-district expenditures and receipts shown in this section are based on the 1985-86 Annual Reports filed by school districts as of August 1, 1986. Subsequent revisions due to audits required under Statute 120.14 have been included as well. Membership figures are based on the 1985-86 Budget Reports and January, 1986 Membership Reports filed by school districts and subsequently revised by audits. Equalized valuations are based on the assessment of January 1, 1986, as certified by the Wisconsin Department of Revenue in October, 1986.

STATEWIDE FACTORS

The following factors apply to all districts in the computation of general school aid.

Guaranteed Valuation per Member. The state, in Statute 121.07(7), guarantees a minimum tax base to support the education of each child in the state. The primary guarantee supports costs up to the primary ceiling cost per member (described below), and is an amount determined by the department which distributes the appropriation under Statute 20.255(2)(ac) each fiscal year; the secondary guarantee supports costs above the primary ceiling cost per member, and is defined as 106% of the average equalized valuation per member. Values by type of district used in this estimation are:

PRIMARY	TYPE	SECONDARY
$245,400	K-12	$172,600
$736,200	UHS	$517,800
$368,100	K-8	$258,900

Primary Ceiling Cost per Member. Statute 121.07(6) defines this value as 110% of the state-average shared cost per member for the school year previous to the year from which cost and membership figures are taken. The 1984-85 state-average shared cost per member of $3,207.56 produces a primary ceiling cost per member of $3,528.32.

Debt-Service Maximum Sharable Cost. The shared cost consist[illegible] the net cost of the general fund plus the net cost of the debt-service fund of the school district. However, Statute 121.07(6) places an upper limit on the amount of cost per member from the debt-service fund subject to sharing. The limit is $90.

EXPLANATION OF LINE HEADINGS

SCHOOL COST is one of several types of expenditures made by a school district, as explained below under "Explanation of Column Headings."

COST/MEM for any given line is the school cost shown on that line divided by the number of members shown on that line.

AID/MEM for any given line is the state aid shown on that line divided by the number of members shown on that line.

LEVRT for any given line is the school cost minus the state aid on that line, divided by the equalized valuation on that line, and multiplied by 1000 to produce a rate expressed in mills of tax per dollar of equalized valuation.

EQZT VALUATION is one of two figures reflecting the inclusion or exclusion of certain types of property. All districts start with a figure which reflects assessment of real property only, at 100% of true value, and inclusion of the incremental value above the base established for any tax-incremental-finance (TIF) district within the boundaries of the school district. Some districts have a second value, which also has real property only, assessed at 100%, but which has TIF increments excluded if the tax incremental district was created prior to January 1, 1983.

MEMBERS are pupils counted for state-aid purposes. The figure shown represents the average of the third Friday in September and the second Friday in January memberships, plus the summer school ADM equivalent.

EV/MEM for any given line is the equalized valuation shown on that line divided by the number of members shown on that line. This is the figure which is compared to the primary and secondary guaranteed valuations per member to determine how well the district is able to finance its own cost.

EXPLANATION OF COLUMN HEADINGS

The first line for a school district gives the school district name and code number; the type of district: kindergarten through Grade 12 (K-12), secondary or union high school (UHS), or elementary (K-8); the date on which data for the district were last updated; the source of data for 1985-86 and the county code number and name.

PRIMARY cost is the part of shared cost which falls below the primary ceiling cost. The shared cost consists of the net cost of the general fund plus the net cost of the debt-service fund (less any non-shared portion over $90 per member).

SECONDARY cost is the part of shared cost not included under primary cost.

MINIMUM is an arithmetic means of bringing a negative value for aid computed under the primary and secondary levels up to the statutorily specified minimum level of zero. The levy rate shown on this line will always be negative, since the effect of cancelling negative aid is to reduce the local property-tax obligation.

TIF (tax-incremental-finance) or supplemental aid, paid under the provisions of Statute 121.085, is the additional amount of aid generated by using an equalized valuation with the eligible TIF increment (if any) excluded. The lower tax base means that the district is less able to finance its own costs and is in need of additional state aid. Tax incremental districts created after January 1, 1983, are not subject to supplementary aid.

NON-SHARED cost is that part of the net cost of the debt service fund which exceeds the $90 per member subject to sharing by the state. No aid appears on this line, since these costs are not shared.

TOTAL cost is the sum of the primary cost and (if any) the secondary and non-shared costs. Total aid is the sum of the primary aid and (if any) the secondary, minimum, special adjustment, one-time special adjustment, and TIF aids. Other figures on this line are computed as indicated under "Explanation of Line Headings."

MISCELLANEOUS

Rounding of individual items may mean that they will not add exactly to the totals shown.

Levy rates are of several different types. (1) The required levy rate is the shared cost divided by the guaranteed valuation at each level of sharing. (2) The indicated levy rate (shown herein) is the cost minus the aid for any given line divided by the current-year equalized valuation shown on that line; by law, aid computations must be based on current-year valuations. (3) The actual levy rate—which may reflect costs or receipts not shown in this section or the district's decision to alter its fund balance—is the amount of property tax levied divided by the current year equalized valuation; by law, local taxes must be levied based on current-year valuations. The actual levy is also sometimes quoted on the basis of assessed valuation, which is generally a lower figure than equalized valuation and hence produces a higher levy rate; assessed-valuation levy rates are not comparable from one municipality to another and so are of limited use in publications like this one.

SECTION F - ESTIMATED SCHOOL AID CREDIT FOR 1986-87

The Wisconsin Act 120 provided in s.79.10 of the statutes for a school aid credit as a form of state support for public elementary and secondary education. Unlike the traditional state support which is paid directly to the school district treasurer, this school aid credit is paid to the municipal treasurers who in turn settle with school district treasurers in the same manner as they settle for property taxes collected from taxpayers. In essence this procedure causes the state to pay a piece of each property owners school tax bill whereas the direct aid payment to the school district tended to offset the amount of the school district tax required to be levied in the first place.

The act appropriated in s.20.835(3)(c) $198,500,000 to be paid out as a school aid credit in 1986-87. This is $43,500,000 more than the appropriation for 1985-86.

The statute requires the Department of Public Instruction to compute the school aid credit for school districts using the equalization aid formula and certify the amounts to the Department of Revenue. The Department of Revenue in turn causes the school district amounts to be apportioned among the municipalities of each school district and certifies the amounts to the municipal clerks. The municipal clerk apportions the credit among the individual property taxpayer as a credit against his school property tax bill.

The amount appropriated in s.20.255(2)(ac) as equalization aid to be paid directly to the school district in the usual manner was $934,176,600 which is slightly less than the amount as was appropriated for distribution in 1985-86.

If you have questions about Section F or need additional information or clarification, please contact Roger Sunby, Bureau for State School Aids Administration and Consultation, (608) 266-2840.

SECTION F - ESTIMATED SCHOOL AID CREDIT FOR 1986-87

ESTIMATED SCHOOL AID CREDIT FOR 1986-87

INTRODUCTORY COMMENTS

School aid credit is a tax credit to taxpayers to offset a portion of the school taxes levied against the properties of the taxpayers. The 1986-87 school aid credit was certified by the Department of Revenue to the municipalities in the state on December 1, 1986. The municipalities determined each taxpayers' portion of the credit and included that amount in the school tax credit listed on the full disclosure tax bill distributed to the taxpayer in December. Half of the amount of school aid credit for each municipality was paid by the state to municipalities on the 1st Monday in March, 1987. The second half was paid in June, 1987. Municipalities included the school aid credit amount in tax settlements to school districts.

SOURCES OF DATA

The data used by the Department of Public Instruction to certify to the Department of Revenue the amounts of school aid credit for each school district was the same data used in the computation of direct general state aid; i.e., fiscal data from 1985-86 Annual Reports, membership data from 1985-86 Budget Reports and January 1986 Membership Reports, and 1986 equalized values as certified in October, 1986.

STATEWIDE FACTORS

The following factors apply to all districts in the computation of school aid credit.

Guaranteed Valuation per Member. The state, in Statute 121.07(7), guarantees a minimum tax base to support the education of each child in the state. The primary guarantee supports costs up to the primary ceiling cost per member (described below), and is computed according to the law; the secondary guarantee supports costs above the primary ceiling cost per member, and is defined in terms of the state average equalized valuation per member. For 1986-87 it is 106% of the average equalized valuation per member. Values by type of district are:

PRIMARY	TYPE	SECONDARY
$285,500	K-12	$172,600
$856,500	UHS	$517,800
$428,300	K-8	$258,900

The school aid credit is the difference between the amount determined using the primary guarantees above and the amount of general equalization aid determined in Section E.

Primary Ceiling Cost per Member. Statute 121.07(6) defines t[illegible] value as 110% of the state-average shared cost per member for the school year previous to the one from which cost and membership figures are taken. The 1984-85 state-average shared cost per member of $3,207.56 produces a primary ceiling cost per member of $3,528.32.

Debt-Service Maximum Sharable Cost. The shared cost consists of the net cost of the general fund plus the net cost of the debt-service fund of the school district. However, Statute 121.07(6) places an upper limit on the amount of cost per member from the debt-service fund subject to sharing. The limit is $90.

EXPLANATION OF COLUMN HEADINGS

The line for each district shows the district code number, the district name, and the 1986-87 school aid credit distributed in March and June, 1987. The school aid credit will be recomputed in June, 1987 using recertified 1986 equalized values and fiscal data and membership data as adjusted from audits during the year. If, as a result of the June, 1987 recomputation, any changes are made in the school aid credit for the school districts, such changes will be certified to the Department of Revenue which in turn will add (or subtract) such amounts to the 1987-88 school aid credits.

SECTION G - MINIMUM STATE AID, SPECIAL ADJUSTMENT AID, AND ONE-TIME ADJUSTMENT

Wisconsin Act 29 of 1985 and Act 120 of 1985 created three new types of aid through Statute 121.10 Minimum State Aid, Statute 121.105 Special Adjustment Aids, and Statute 121.11 One-Time Adjustments. Minimum State Aid and Special Adjustment Aids are described on pages D-5 and D-6. One-Time Adjustment Aid is paid to districts that received less than 95% of initial state support provided for 1986-87 under Wisconsin Act 29 of 1985 as a result of Wisconsin Act 120 of 1985.

If you have questions about Section G or need additional information or clarification, please contact Roger Sunby, Bureau for State School Aids Administration and Consultation, (608) 266-2840.

COOPERATIVE EDUCATIONAL SERVICE AGENCY (CESA) - A grouping of school districts, headed by a board of control, charged with implementing and operating cooperative programs between member districts and insuring proper school-district organization. Each district in Wisconsin is in one of the 12 CESA areas.

COST - In general, an expenditure for goods (supplies, materials, equipment, land, buildings) or services (salaries, benefits, utilities, professional fees). In determining costs, care must be taken to avoid double-counting. For example, if a school building is financed from borrowed money, the total cost should include either the payment to the building contractor or the repayment of the borrowed money, but not both. Similarly, if a school district spends money for a school-lunch program out of the food-service fund and also transfers money from the general fund to the food-service fund to help pay for the school lunch program, it should not count the transfer as an additional cost. Depending on the grouping being examined, a given expenditure can be a cost in one case but not in another. For example, if one looks at a single school district, payments by that district to other school districts are counted as costs, since they are not otherwise counted by that district. If, however, one looks at the total expenditures for all school districts in the state, it is necessary to subtract out the interdistrict transfers, or else the same cost would be reported by two different districts. There are many different ways in which costs can be assembled for various purposes. The following are the ones most often used in Wisconsin school districts:

Gross Cost - The sum of all non-duplicative expenditures of a fund or a school district.

Net Cost - The gross cost of a fund or a school district minus costs paid for by certain receipts (typically federal aid, state categorical aid, and local non-tax receipts) of that fund or district.

Complete Annual School Cost (CASC) - The gross cost in any given school year of the general, special-project, debt-service, and food-service funds, plus the net cost of the building fund (subtracting out costs paid for through long- term borrowing, which are already recorded in the debt-service fund). In Section A Table 7 and in Section C of this publication, the CASC also reflects the subtraction of costs paid for by incoming transfers from other school districts.

Comprehensive Annual School Cost - Complete Annual School Cost plus the cost incurred for the operation of CESAs and the costs incurred by CHCEBs.

Partial Annual School Costs (PASC) - The CASC minus costs paid for by federal aid and local non-tax receipts.

Sharable Cost - The cost which must be paid by a combination of property taxes and state general aid; equivalent to the PASC minus costs paid for by state categorical aid; also equivalent to the net cost of the general fund plus the net cost of the debt-service fund.

Non-Shared Cost - The part of the net cost of the debt-service fund of a school district which is in excess of $90 times the general-aid membership.

Shared Cost - The cost used as the basis for computing state general aid; equivalent to the sharable cost minus the excess and non-shared costs.

Primary Ceiling Cost - 110% of the prior-year state-average shared cost per member multiplied by the district's general-aid membership.

Primary Cost - That portion of the shared cost which is below the primary ceiling cost and in which the state shares using the primary guaranteed valuation per member.

Secondary Cost - That portion of the shared cost which is above the primary ceiling cost and in which the state shares using the secondary guaranteed valuation per member.

Replacement Cost - The cost of replacing a capital object with another of a new material of like kind and quality in a given time and place.

Unit [illegible]st - The cost of a function, activity, or service divided by the total number of units for which the function, activity, or service was provided.

COST CONTROLS – Wisconsin laws which limited school districts to an annual increase of 10.5% in the controllable cost per member; appeals, adjustments, and referendums could extend the limitations. Cost controls were repealed in 1983; 1982-83 was the last year in which they were in effect.

COUNT – An enumeration of discrete individual units using integers. Fractions and decimals are not appropriate to counting. (Also see "measurement.")

COUNTY HANDICAPPED CHILDREN'S EDUCATION BOARD (CHCEB) – A branch of county government which provides instructional and therapeutic services to handicapped pupils. In 1986-87, there are 9 operating CHCEBs; the remaining 63 counties do not have CHCEBs. (Also, see "IEA.")

COURSE – An organization of subject matter and related learning experiences provided for the instruction of students on a regular or systematic basis. Credit toward graduation or completion of a program of studies generally is given students for the successful completion of a course.

CROSSWALK – In data processing, a procedure by which codes used for data in one data base are translated into the codes of another data base, making it possible to relate information between or among data bases.

CURRICULUM – A planned structure of courses established for the purpose of the attainment of educational objectives.

DATA BANK – A comprehensive collection of data, usually in machine-usable form, which can be used for such purposes as drawing subsamples for special studies, checking hypotheses, facilitating historical studies, and deriving summations and correlations. Typically, an educational data bank is comprised of component files relating to specific areas of information, such as pupils, staff, property, finance, instructional programs, and the community.

DATA PROCESSING – The use of machines and devices in the storing of individual items of information in a form by which they may be rapidly and accurately retrieved, processed, and reproduced as single line items, as lists of items, or in desired combinations with other items.

DAY IN SESSION – A day on which the school is open and the students are under the guidance and direction of teachers. On some days the school plant may be closed and student body as a whole engaged in school activities outside the school plant under the guidance and direction of teachers. Such days should be considered as days in session. Days on which the teaching facility is closed for such reasons as holidays, teachers' conventions, and inclement weather should not be considered as days in session.

DEBT SERVICE -- Expenditures for the retirement of principal and payment of interest on debt.

DECLINING-ENROLLMENT INCREMENT (DEI) – See "pupil count."

DEGREE – A title conferred by a college or university as official recognition for the completion of a program of studies or for other attainment.

DIMENSION – A quality, attribute, or frame of reference, usually one which can be measured or categorized (eg: distance, time, purpose of an expenditure).

DIPLOMA – A certificate conferred by a high school or similar agency as official recognition for the completion of a program of studies or for other attainment.

DISBURSEMENTS – Payments in cash.

DISSEMINATION OF INFORMATION – The transmittal of pertinent educational information to the educational community, the general public, the state legislature, the federal government, or the various news media.

DISTRICT ADMINISTRATOR – A staff member who is the chief executive of a school district; a superintendent of schools.
